HEALTH REQUIREMENTS—PAYETTE COUNTY FAIR

ALL ANIMALS and PERTINENT HEALTH DOCUMENTS are subject to inspection by the veterinarian in attendance upon admission to, or while on, the exhibition grounds. No animal shall be admitted to or allowed to remain on the grounds that shows evidence of any infectious or contagious disease or any unsightly condition. The management reserves the right to require health inspections, diagnostic tests, treatments and/or other animal health measure or procedures which might become necessary in emergencies. **Animal Owner is responsible for costs associated with Veterinarian.**

DAIRY AND BEEF CATTLE—All cattle must be sound, in good health and free from communicable diseases. All female cattle over 4 months of age should have a legible Brucellosis vaccination tattoo. All out of state cattle must meet Idaho import requirements.

GOATS—Must be sound, in good health and free from any communicable disease. Out of state goats must meet Idaho import requirements. Must be current on all vaccinations.

SHEEP—Must be sound, in good health and free from communicable disease. It is suggested that sheep be current on vaccinations for Enterotoxemia and Tetanus. Out of state sheep must meet Idaho import requirements.

SWINE—(1) Must be sound, in good health and free from communicable disease.

(2) All swine entering the fair must be accompanying by a health form showing record of vaccination, including Erysipelas (using a killed or modified live vaccine given at least 60 days prior to entering.) All 4-H and FFA entrants must have the "Health Statement Form" signed by a club leader.

(3) Brucellosis & Pseudorabies—All out of state swine must meet Idaho Bangs and Pseudorabies interstate shipment requirements.

POULTRY, PIGEONS, DOVES—Must be sound, in good health and free from communicable diseases. They must be free from lice and mites. Out of state poultry must meet Idaho import requirements.

RABBITS AND CAVIES—Must be sound, in good health and free from communicable disease.

DOG—Must attach copy of current rabies vaccination from veterinarian. If yearly shots are given at home, must attach the label from the vaccine used and date given.

HORSES—All horses must be sound, in good health and free from communicable disease. Horses are encouraged to be vaccinated for Encephalitis, Tetanus, Influenza and Rhino at least months prior to entering. Instructions~Please have animal producer sign off on the vaccination records when you purchase your animal.
