

Dr. Geoffrey Dahl

Director, Feed the Future Innovation Lab for Livestock Systems

Harriet B. Weeks Professor

President, American Dairy Science Association

University of Florida

Dr. Geoffrey Dahl is a Professor and the Harriet B. Weeks Professor at the University of Florida, where he also serves as the Director of the Feed the Future Innovation Lab for Livestock Systems. He is currently the President of the American Dairy Science Association. Dr. Dahl's research focuses on applied and basic animal science, with a particular emphasis on the physiological impacts of management interventions such as photoperiod and heat stress abatement during various stages of the lactation cycle. His work aims to optimize cow health and performance, with his research extending to other agriculturally significant species like sheep, goats, and pigs.

Education:

- Ph.D. in Animal Science, Michigan State University (1991)
- M.S. in Dairy Science, Virginia Polytechnic Institute & State University (1987)
- B.S. in Animal Science, Minor in Agricultural Economics, University of Massachusetts (1985)
